This Month's Learning & Activities

This month we will continue to work on building our stamina when reading and writing in Language Arts. We will continue to work on Place Value in Math and in Social Studies we will continue to look at our community (K-2), our province (3-4) and our country (5-6). In Science, K-3 has been working on colors and senses while in 4-6 we have been looking at trees and plants. We have had lots of fun in PE playing games and conquering obstacle courses, singing in Music and being creative in Art! In Health we have been learning healthy habits and looking at how we are all unique. We are in the midst of planning some land-based learning opportunities, please let Mrs. Ram know if you're willing to help with this!
